E. Witzkie, charged with attempted bur-glary, gave bonds last evening and was released from the county jail, where he was imprisoned, until Monday morning at 9 o'clock, when he will have a hearing before Justice Swearingen. An information will be filed against him this morning charging him with robbing Whittaker's store on Lower Broadway.

The restaurant keepers complain that the wieniewurst men are cutting such a large hole in their profits that they are unable to pay their expenses. They have entered a project against allowing the peddlers to sell their wares on the streets without paying a license for the privilege, and threaten to have them arrested under the city ordinance unless something is done.

John Schoentgen denies the report that the committee appointed by the school board expects to investigate charges of short weight against the firm that furnishes the coal to the district. He states that whatever little discrepancies have been discovered might easily arise from an imperfection in the scales, and would not indicate any crookedness on the part of the dealer. THE OMAHA BEE. NEWS FROM COUNCIL BLUFFS.

Colored Politician Accused of Tampering with Young Girls.

AUTHORITIES PUZZLED OVER THE CASE.

Though the Prisoner is Behind the Bars, There is No Charge Against Him-City Coun cil Session.

Charles Jones, a prominent colored politician, is in ball without any charge against him, and the authorities are somewhat puzsled as to what charge to make. For some time past a colored man has been seen to take his stand at the front door of the saloon at 17 North Main street about the time when the children were passing to and from school. On a number of occasions he was seen handing a note to one of the scholars, a girl about 10 years of age. The police were put on the track of the fel-The police were put on the track of the fel-low Monday, and resterday morning Officer Keily happened to catch the fellow in the act of passing a note to three young girls, who opened it and read it as they went along. Just then the officer stepped up and de-manded the note. It was given to him and

manded the note. It was given to him and
the girls were marched to the station.

The letter was addressed to a girl named
Mabel, but the last name was not given. It
was filled with urgent appeals to the girl to
meet him at a certain place and promises of
money in case she compiled. There was
nothing obscene in the letter excepting what
could be read between the lines and there
was no name signed.

was no name signed.

At the station the girls gave their names to the police, but begged that they be kept from the public. One of them, whose name was Mabel, and to whom the letter had been addressed, admitted having received notes of the same kind from the fellow, but was unable to explain why she had not told some-

As soon as the girls had been left at the police station Officer Kelly went back after the negro, but he had skipped. In the afternoon it was learned that the fellow had been seen at a house year the corner of Twelfth street and Broadway, and Deputy Marsha.s Fowler and Eisenberger and Officer Murphy went to the place. He got wind of the ap-proach and slid out of the side door as they overed the front and back. After a hot chase of four blocks he was cornered and taken to the city jail. When questioned about the affair he denied having given the gri the note or having had anything to do with her. The police, however, claim to have evidence against him that will keep him out of harm's way for some time to come. The woman who keeps the house where Jones was found was also arrested later in the afternoon and was slated with vagrancy. To one of the officers who arrested her she admitted that she had known of Jones having brought the girls to her house a number of times. If this charge against him it will be apt to go hard with him.

\$55 FOR \$19.50.

The Latest Sensation at the Boston Store, Conneil Bluffs-A High Grade Sewing Machine for \$19.50.

The Boston store, the great headquarters in the Missouri valley for low prices, in further evidence that they are the leaders and promoters of popular prices, will supply the public hereafter with high grade sewing machines at about one-third what they have been sold for heretofore. One of the most beautiful, lightest running modern improved machines is the Demorest, which s in every respect-the equal and in many respects almost the counterpart of the Domestic. It has identically the same shuttle, and same design of chinery with the single exception of the take up. In many other respects it has valuable improvements, and is a much handsomer machine. It is made of the best of materials, and is highly finished in every particular. It is WARRANTED FOR FIVE YEARS. It is simply the kind of a sewing muchine that you have heretofore paid \$55 for, but now you can have it if you will come and get it, for \$19.50. There are three other styles of cabinet work that come at higher prices but the machinery and attachments are

Council Proceedings. The city council took a ride over the city vesterday afternoon in the patrol wagon as a committee of the whole for the purpose of examining into a number of important measures that were laid over at the meeting on Mon lay evening. One of the most important of the matters looked into was the grading of Avenue A. The motor company has put in a decided protest against the grading, and this protest was the cause of the investi-

The council met in the evening to act on the matters which it investigated during the day. It was decided to purchase a strip of land from Mrs. Kay so as to make Pierce street sixty-six feet in width and the finance committee was instructed to see that the

transfer was made. Avenue A was ordered graded from Twen tieth to Twenty-tourth street,

The Chautauqua motor ordinance was brought up, and a spirited debate ensued. A protest signed by twenty-five property owners against granting the right of way to the company to operate its line on Washington avenue was presented by Messrs. Crossland and Deetken. Crossland claimed that if a few days were given him he could get 95 per cent of the property owners on Washington avenue to sign the protest. A motion to postpone the matter so as to allow Crossland to circulate his protest further was lost. A motion was made by Wood to strike out Washington avenue from the list of streets Washington avenue from the list of streets granted to the company, but was opposed by Van Brunt and Pace, on the ground that the company would never accept an ordinance with Washington avenue left out, as there was no other street on which the line could be laid.

Casper was opposed to the motor line on general principles, and launched an invective at the head of Van Brunt.

"I could challenge your vote, and Wind's

"I could challenge your vote, and Wind's too," said he, "and if I did you couldn't vote on this question, because you're both interested in the Chautanqua. I wouldn't do it though?"

Van Brunt and Wind explained that the Van Brunt and Wind explained that the Chautauqua motor was not the Chautauqua assembly, and the question was about to be put, when Pace made a motion to adjourn. Wood seconded it, but before it was put the ordinance was referred to the city attorney with instructions to put it in proper shape so that it might be passed at the next meeting. During the massage of this motion Smith and During the passage of this motion Smith and Wood became involved in a wrangle and the spectators were treated to the spectacle of two dignified aldermen just on the verge of knocking each other down. After an excit-ing and stormy debate the meeting adjourned until the regular meeting, a week from next Monday night, and the motor ordinance was left right where it was.

Montana's Famous Copper Mine, the Anaconda, to Start Up. BUTTE, Mont., Oct. 21 .- Within the next ten days the famous Anaconda copper mine will be in full operation. Last spring the mine fhut down. Two reasons had been given for this. One was that Haggin believing that he owned and controlled the bulk of copper in the world, closed down in order to corner

it. The other reason was that the railroad which runs from Anaconda over to Butte, a distance of twenty-five miles, had concluded to charge Haggin its own rates.

This Haggin would not consent to, and he closed the mine. Information has been re-ceived that the construction of a new line from Butte to the smelter will be imme-

The Great Chinese Panaceist

Wishes to give a few reasons why he is work-ing such wenderful cures where other doctors fall.

China has about half the population of the globe. They have been practicing and perfecting medicine over 4.000 YEARS. Ching Nung (see Ency. Brit.) discovered seventy-two poisons and their autiliotics 2.45 years before Christ, and Marco Pola, who brought the company.

Campini, one of the first Europeaus who en-tered China, says: "Their physicians have a thorough knowledge of the nature of herbs and an admirable skill in diagnosing by the pulse." (See Willard's Middle Empire.) It is well known that gunpowder, steam and electricity are old in China, and that the Chinese were printing their delicate books 900 years before Guttenberg was born.

years before Gurtenberg was born.

But it was to nedlelne the Chinese gave their attention, and when the emperor Chin Wong ordered all the books to be burned be excepted the medical works, and it was only by the morest accident that the great works of Confucius himself were saved, he having placed a set of his works in the corner-stone of his residence, which was found 2,000 years after.

The polebrated De Helmand Confusion of the polebrated De Helmand Confusion of his residence, which was found 2,000 years after.

The celebrated Dr. Hobson states that one of the Chinese dispensatories gives 1442 HERBAL REMEDIES alone. Can you wonder The celebrated Dr. Holson states that one of the Chinese dispensatories gives 1442. HERBAL REMEDITS alone. Can you wonder then at the doctor's success?

The Caucasian physicians all use the very same Remedies and when you change doctors, in your disappointment and disgust, you merely change fuces and assertions but not medicines. When an American doctor discovers a new remedy all the other doctors know about it immediately. Now, you know the Chinese boctor comes from an almost unknown country, containing nearly bail of the people of the world, where all the medicines are entirely different, and Dr. C. Gee Wooffers a reward of \$50,00 to any one who can dupitcate any one of his Chinese Medicines. Do you now comprehend that after giving up all hope of being circle by your doctors, that in taking the Chinese Doctor's Remedies, 4,000 in number and absolutely unknown outside of China, that he has a wonderful advantage over all other physicians. His new remedies have nover before entered your blood and set on it as if by magic, curing the disease and rendering the complexion clear as a child's.

A MOTHER'S STORY.

I am 62 years of a c and have suffered indescribable agony from asthma for many years. I could not sleep and had to sit up all night in a chair. I tried doctor after doctor but without heep and thought some night I would choke to death. As a last hope I tried Dr. C. Gee Wo, the Chinese doctor, and was refleved instantiy. In a short time I was cared and have nover since been troubled. I have reason to biess Dr. C. Geo Wo.—MRS. P. O. HIRSH. 24th St. bet. J & R. South Omaha.
